ABOUT ME

Coding apprentice at Road to Hire, learning different languages in a natural working environment. I have also built many Personal Development skills like networking, email etiquette, and personal branding. I am looking to expand my skills and knowledge as a Software Engineer in the tech field.

EDUCATION

Central Piedmont Community College

Broadcasting and Production Technology

2019-2021

SKILLS

HTML	React.js
CSS	TypeScript
Javascript	Passionate
MySQL	Team Worker
Node.js	Problem Solver

EXPERIENCE

Coding Apprentice   Aug 2022 - Present

Road to Hire

- Learned various coding languages and frameworks such as HTML, CSS, Javascript, Typescript, Node.js, React.js, and MySQL.

- Managed time and completed assignments efficiently in a fast-paced learning environment.

- Worked in a group environment with other apprentices to complete group projects.

- Developed personal development skills like networking, giving and receiving feedback, public speaking, time management, and various ways to study.

Personal Salesperson   November 2021 - December 2022

- Kept track of inventory and distributed items to customers.

- Lead a group of people on how to successfully distribute items the same way.

- Managed different JSON files and Google spreadsheets that showed items sold.
